P3 PRO EVO MAX

Maximum performance and proved technology for toughest applications

Performance-enhanced jump starter for all common motor vehicles. Switchable power supply also for mobile devices can be used like electric tools (with converter also supply of 230 V devices possible).

Solid construction for professional use, easy and safe handling including reverse polarity protection with optical and acoustic warning..

New: Built-in fuse in clamp, fully automatic charger LESA12 / 2 A

CHARACTERISTICS

Construction: Solid housing, high-quality copper cable incl. holder

Testing Function: Voltage test of the battery

Protection: on/off switch, reverse polarity protection incl. optical and acoustic warning

Clamps: Exchangeable, fully insulated brass clamps with integrated fuse

Display: Large LCD display

Battery: 25 Ah AGM high performance battery, replaceable

Charging: Automatic 2 A charger or direct charging via car 12 V DC connection

Accessories: Charging cable for car cigarette lighter input (12 V DC), automatic charger

APPLICATION

Professional Range:

12V: Standard, Ca, Start-Stop (EFB, AGM), Gel

TECHNICAL DATA

Type:	Booster P3 Professional EVO MAX
Nominal Voltage [V]:	12
Cranking Current [A (EN)]:	1.170
Peak Current [A (EN)]:	3.100
Battery Capacity:	25 Ah AGM
Charger:	230 V AC / 12 V DC, 2 A
Dimension [cm]:	36 x 16 x 28
Weight [kg]:	11,5
Power Cable [cm]:	124 (Ø 25 mm ²)
